

Production details posters SIREN 2006

- * The camera-ready copy for the poster is urgently required by Monday 18 September. Due to the production schedule, no extensions on this deadline are possible.
- * The supplied PDF will be used to produce a "calendar" (consisting of all posters, reduced to A4) for the conference participants.
- * The poster must fit on a single A4 page. Your provided PDF (Adobe Acrobat) file must be printable at a resolution of 300 dpi or greater, and be readable when photo reduced to roughly 95% of a single A4 page. Please beware of using exotic colours which may not be distinguishable after printing.
- * If the reported research was supported by the NWO, be sure to include the project number and the NWO logo (downloadable from http://www.nwo.nl/nwohome.nsf/pages/NWOP_5ZKBHU).
- * The file must be provided directly by email to siren@nwo.nl.
- * The size of the full-size poster (max. A0 size) should fit on a poster board of 220 cm height by 90 cm width.
- * The printing of the final full-size poster version remains your responsibility, though changes should be minimized. Please minimize differences between the provided PDF file and your full-size poster; in particular, the title should remain the same.

We require the following information **before 11 September** (by email to siren@nwo.nl):

- * The definitive title of the poster.
- * If the reported research was supported by the NWO, be sure to include the **project number**.
- * The name(s) of the coordinators, (co-)authors and the institutions/organizations.
- * The email address(es) and web site(s) of the researcher(s).
