

PDC3(c): An Open-Source SMIL Media Player

Jack Jansen, Dick Bulterman, Kees Blom

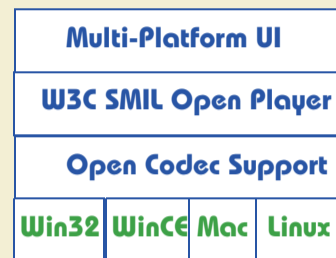

The Problem

Current-Generation Media Players:

closed-source proprietary players which cannot be used for research experimentation

The AMBULANT Open Media Player:

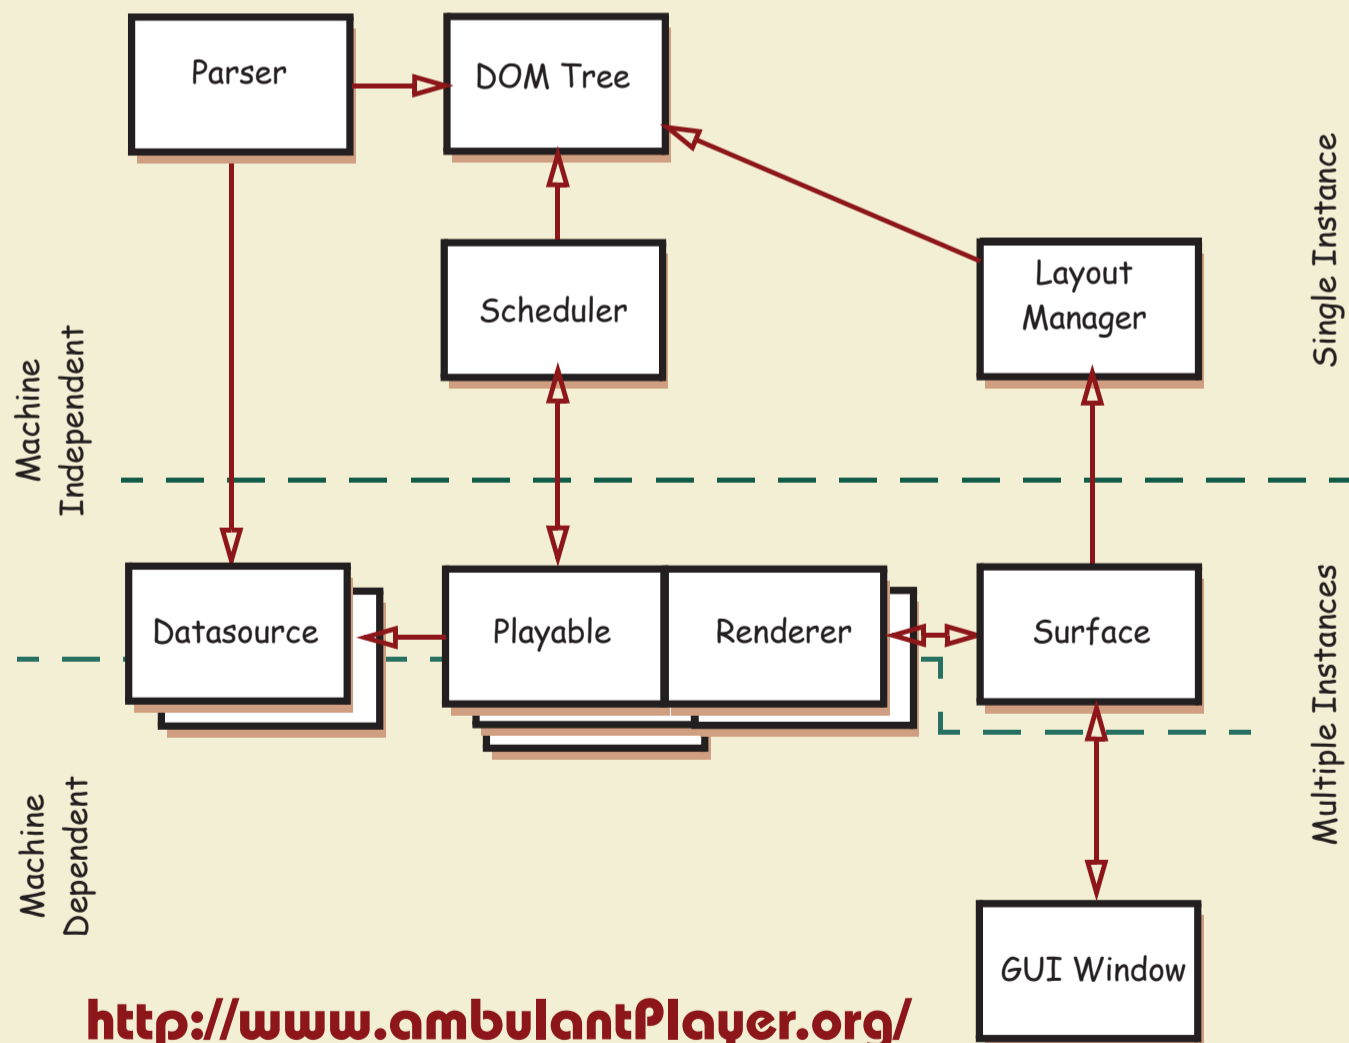

an efficient and complete open player

Challenge:

- defining, implementing and publishing an open research player for common media architecture experimentation.

Our Approach

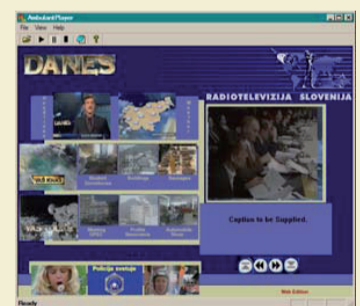

<http://www.ambulantPlayer.org/>

Contributions:

- Only fully open, integratable SMIL media player anywhere.
- Over 24,000 downloads in 2006.
- Reconfigurable research media player, already integrated in many 3rd party research projects.
- Used by W3C as test-bed evaluation implementation.
